

 **TOYOTA**
Certified
USED VEHICLES
 ONCE A TOYOTA, ALWAYS A TOYOTA

The car may not be new, but the reputation never wears out.

A Toyota Certified Used Vehicle is, first and foremost, a Toyota. So you are starting out with a used vehicle that has the same quality and dependability that Toyotas are famous for when they are new. And, every Certified Toyota must pass a rigorous 127-point quality assurance inspection performed by a factory-trained technician – something only Toyota can do. Yes, there are plenty of certified used vehicles out there, but they don't have Toyota's reputation for quality to live up to. Get the complete story of Toyota Certified Used Vehicles by going online at certified.toyota.ca

All Toyota Certified Used Vehicles are factory-backed for 12 months or 20,000 kms with Powertrain Warranty and Roadside Assistance coverage. This means that in the unlikely event that something goes wrong within the warranty period, you don't have to worry. You're covered. Now that's peace of mind!

If you're looking for a used car, truck, SUV or van that you can depend on, think of Toyota Certified Used Vehicles first. It stands to reason that the quality, dependability and reliability built into every new Toyota is still there.

Extra Care Protection (ECP) Plans on TCUVs offer great benefits:

Mechanical Protection – 7 major mechanical component groups

- covered by any of 1,500 dealers in North America, there are a wide range of plans with varying kilometre limits tailored for your needs and driving style

The logo features the Toyota emblem (three overlapping ellipses) in red, followed by the word "TOYOTA" in red, "Certified" in a large, white, cursive font, and "USED VEHICLES" in red, all within a white rectangular border.

ONCE A TOYOTA, ALWAYS A TOYOTA

Once a Toyota, always a Toyota

The Toyota Certified Difference

- Club Toyota membership
- 7 days or 1,500 kms exchange policy
- First free oil change
- Full tank of gas
- Available comprehensive ECP plans
- Zero deductible
- Grad Program, where applicable
- Standard new car rates

See your Toyota dealer for details on the above listed items.

127-point Quality Assurance Inspection

To be Toyota certified, a used vehicle must have less than 140,000 kms on the odometer and be within 6 model years of age. Every Toyota Certified Vehicle undergoes a rigorous inspection of 127 individual checkpoints in these major categories (a detailed list of each point can be found at certified.toyota.ca):

- Vehicle Servicing
 - Road Test
 - Underhood
 - Underbody
- Vehicle Exterior
- Vehicle Interior
- Reconditioning & Detailing
